

Personalized Italy Loop Bracelet

Supplies:

Foam marshmallows (to hold push pins)
Red mini elastic bands
Green mini elastic bands
Letter beads
Number beads
Push pins
Crochet hook

Instructions

1. Hook one mini band around the push pins in a figure 8 shape.
2. Hook another mini band above the first one but NOT in a figure 8 shape.
3. Using a crochet hook or your fingers, grab the bottom band on one side and pull it up and over the top of the push pin. Do the same step for the other side of the bottom band.
4. Continue with the same step, adding additional bands and pulling the bottom loop up and over so a chain of bands begins to form.
5. After about twelve bands, you can add letters, if you would like. Starting backwards with the letter in the name/word, fold a band in half and push it through hole in the bead.
6. Loop the band with the bead around the push pins. Pull the bottom band up and over.
7. Weave in about 10 more bands after the last (first) letter or number.
8. Carefully remove the bracelet from the push pins and use your nail to push both sides of the last band through a plastic connector clip. Push both side of the first band through the connector.
